**REQUEST FOR EXTENSION – CALIFORNIA WATER CODE SECTION 13267
GROUNDWATER QUALITY INVESTIGATIONS, INSTALLTION OF GAGE AQUIFER
MONITORING WELLS, FORMER BOEING REALTY CORPORATION C-6 FACILITY,
19503 NORMANDIE AVENUE, TORRANCE (SLIC NO. 410)**

Dear Mr. Mossman:

We have received your letter dated March 28, 2005, (Extension Request) requesting a 17-day extension in which to submit the preliminary data package due to weather delays and drilling equipment availability. We have reviewed your Extension Request and you are hereby granted a due date extension in which to submit the preliminary data package from **May 31, 2005, to June 17, 2005.**

The Boeing Realty Corporation (BRC) is required to submit three copies of a draft report presenting preliminary results including laboratory results, water levels, well construction details, wellhead elevations, geophysical logs to the Regional Board by **June 17, 2005.**

BRC is required to submit three copies of a final report presenting the results of this additional investigation by June 29, 2005. Regional Board staff and/or EPA staff may conduct field oversight and split sampling, therefore, BRC is required to notify Regional Board staff at least 5 business days prior to implementing field work and for any schedule changes. We will review this information and determine if BRC is required to install additional wells, investigate additional areas or include additional analyses to evaluate the extent of groundwater pollution beneath or downgradient of the Facility.

Pursuant to Section 13267 of the California Water Code, BRC is hereby required to submit, under penalty of perjury, the information requested above by **June 17, 2005, and July 29, 2005**, due dates. Pursuant to Section 13268 of the California Water Code, failure to submit the required reports or documents by the due dates may result in civil liability administratively imposed by the Regional Board in an amount up to one thousand dollars (\$1,000) for each day the report or document is not received.
